How to Order a New Card

Online Registration

Everything starts with free online registration. Only basic data is needed - name, surname, age etc.

Filling Out a Form

After the basic registration, you will need to fill out a form to help us determine your financial goals.

Signing an Agreement

This stage concludes the procedure of opening an account at Dot Bank to start using your card.

Using Your Card

You can use your card to purchase the products you need or to open a secure deposit with lots of benefits.

Frequently Asked Questions

What is the currency amount for the Blue Card?

What kind of browser do I need for online banking?

The minimum amount that can be loaded on the card is \$100 or equivalent amount in other currency. The maximum amount would be as per Dot Bank guidelines applicable from time to time. You can learn more about it by contacting our consultants.

Our Banking System supports all browsers. Some of the most popular ones are Chrome, Opera, Firefox, and Safari. If you are using Internet Explorer make sure the version of your browser is 9.0 or higher.

What steps do I take if my card gets lost?

If you lose your card please immediately contact our customer support center. If you are in the USA please call 1-800-22-6999, for other countries please call 0091-22-66937000.

Can I make online payments to foreign recipients?

Yes, you can! Our bank does not limit any payments to a certain country so whether you are using our online banking system or an app for your device, you can safely transfer any amount of money or purchase services and products.

Do I have to maintain any minimum balance?

It depends on the card you choose. For example, if you pick an Orange Card, you get a special waiver on the minimum balance requirement.

What security features does the mobile banking have?

Mobile browser-based banking is very similar to PC based Internet banking. The respective mobile handset browser replaces a PC browser to access the banking services. Some of the important security measures in place are 128 bit SSL from VeriSign, https:// based access, intrusion detection system (IDS) etc.
